

COMBINATION THERAPY INCLUDING CAMPTOTHECIN

Inventor: Joseph Rubinfeld

5           A method for treating diseases comprises delivering to a patient  
in need of treatment a therapeutically effective amount of 20(S)-  
camptothecin, an analog of 20(S)-camptothecin, or a derivative of  
20(S)-camptothecin in combination with an effective amount of at least  
one of an alkylating agent, epidophyllotoxin, antimetabolite, antibiotic  
or vinca alkaloid.
